

Third Annual Fine Particle Art Competition & Aerosol Video Competition

**There were fewer art entries this year.
Therefore, all art entries will receive a prize...**

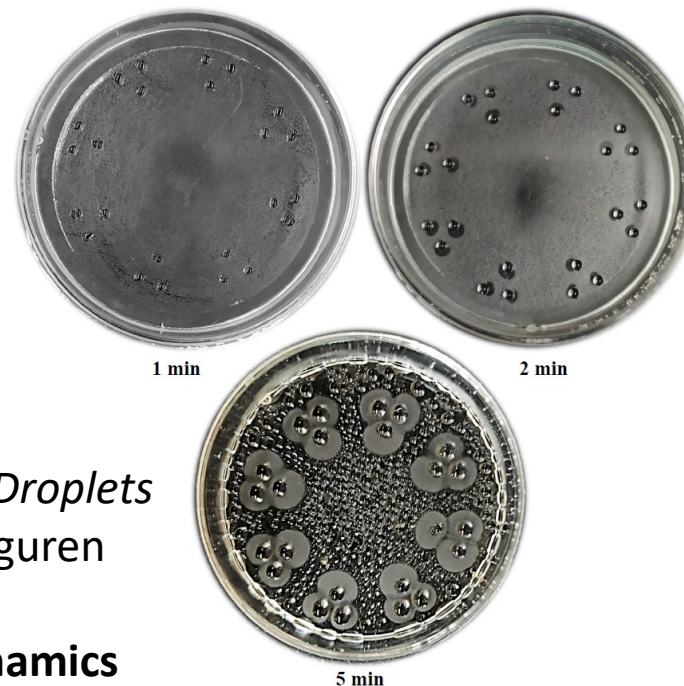

Dropping Acidic Aerosol from the Sky

4th Place: *Dropping acidic aerosol from the sky*

Ziying Lei, Yuzhi Chen, Yue Zhang,
Jason Surratt, Andrew Ault

Univ. of Michigan & Univ. of North Carolina

5th Place Tie: *Crown of Thorns - Watercolor*

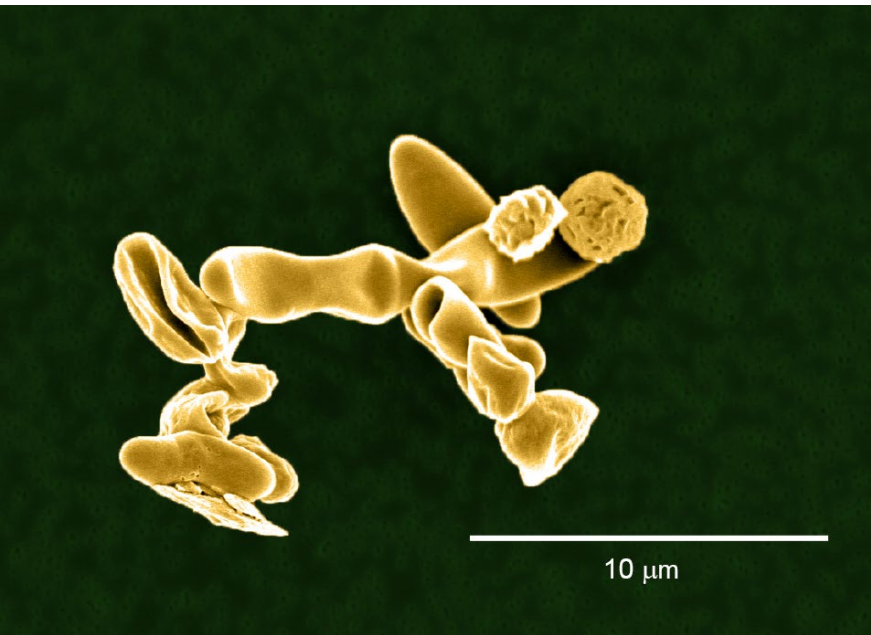

Jan Johnson, Pat Keady

Janette Johnson Graphic Design & Aerosol Devices

5th Place: *Aerosol Particles as Trifoliate Droplets*

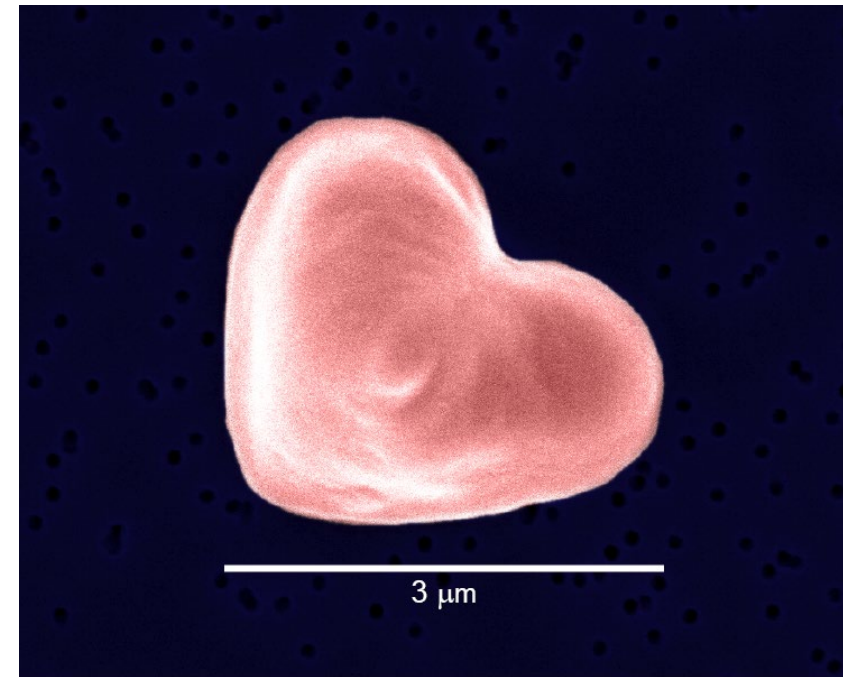

Sripriya Nannu Shankar, Arantzazu-Eiguren
Fernandez, Chang-Yu Wu

University of Florida and Aerosol Dynamics

1st Place: *Particulate Puppy*

Chamari Mampage, Dagen Hughes,
Lillian Jones, Elizabeth Stone
University of Iowa

3rd Place: *Love is in the Air*

Chamari Mampage, Dagen Hughes,
Lillian Jones, Elizabeth Stone
University of Iowa

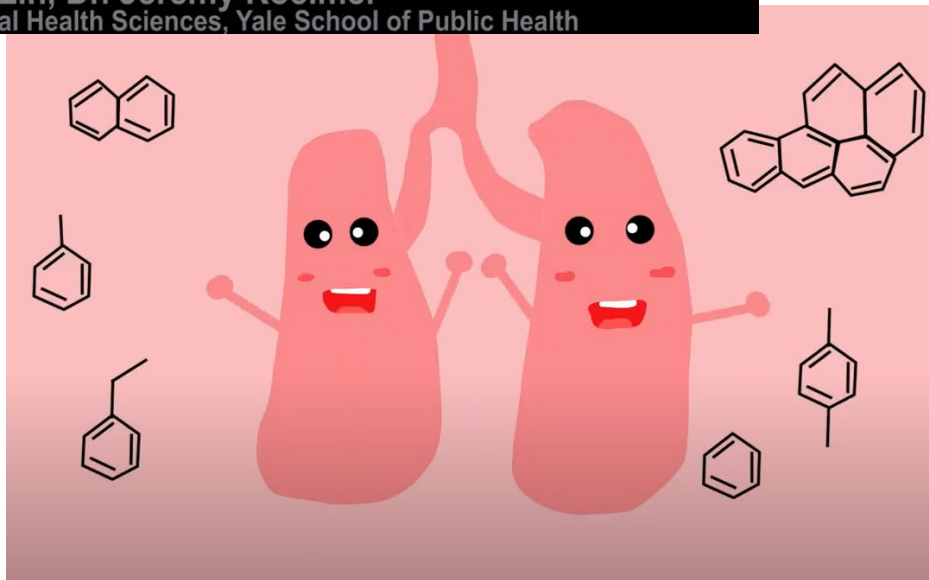

2nd Place: *How to Gruyère Own Fungi*

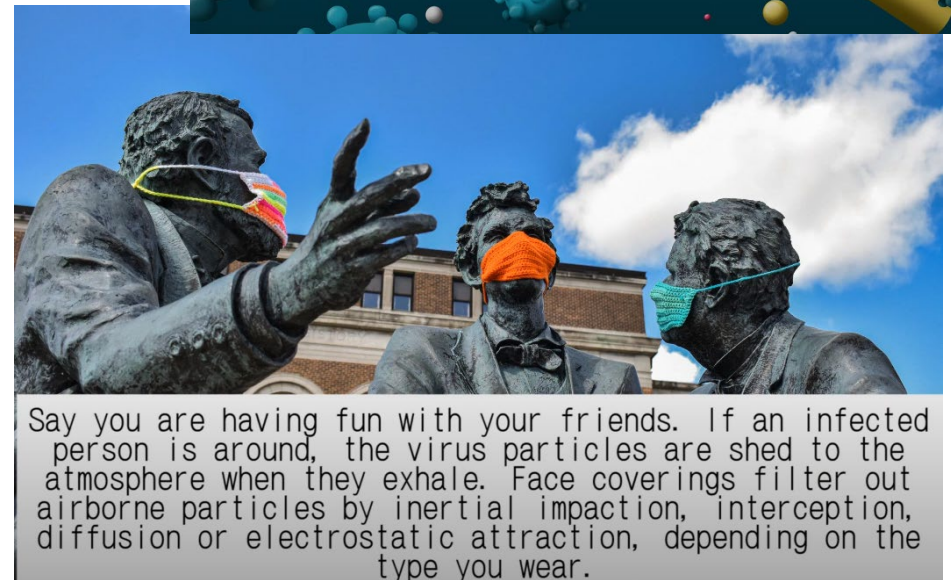

Nicholas Nastasi, Ashleigh Bope,
Karen Dannemiller
The Ohio State University

Indoor Air Pollution

Elizabeth Lin, Dr. Jeremy Koelmel
Environmental Health Sciences, Yale School of Public Health

1st place: *Indoor Air Pollution*
Elizabeth Lin, Jeremy Koelmel
Yale University

Say you are having fun with your friends. If an infected person is around, the virus particles are shed to the atmosphere when they exhale. Face coverings filter out airborne particles by inertial impaction, interception, diffusion or electrostatic attraction, depending on the type you wear.

2nd place: *VIVA(S) La Vida!*
Sherlyn Wee, Kiran Mital, Sripriya Nannu Shankar,
Arantzazu-Eiguren Fernandez, Chang-Yu Wu
University of Florida and Aerosol Dynamics
